News Release

Wilson Creek Pathway Closure Postponed

(June 26, 2013) – Weather has caused a delay in the seal coating of Wilson Creek Pathway between Iowa and Lake Lowell. The hope is to complete the work the first part of next week.

Crews now plan to work from 7am-5pm Monday (7/1) and Tuesday (7/2). The work will be done in sections with fencing closing off the area where work is being done.

Signs on the pathway will also warn those who enjoy walking and biking on the trail of the work being done and the closures required.
