News Release

Children Make Ornaments for Tree Topping

(November 26, 2013) – Nampa children are helping to prepare a special Christmas tree. They will be making ornaments during storytime December 4th at both 10:15 am and 11:15 am. The ornaments will be placed on a Christmas tree set up in the children's section of the library.

On December 11th at 9am the tree will be part of a special Tree Topping Ceremony. The tree with the decorations will be placed on the very last steel beam for the new library. The beam will be lifted into place and secured. The tree will remain there for about 6 weeks. The ornaments will be saved and used in the library in the future.

The Tree Topping Ceremony will not be open to the public due to limitations on the worksite, but the community can observe the beam and tree being lifted from outside the work area.

###

(Media note: This will be a great opportunity to see the ornaments and the tree before the ceremony. The media is invited onto the worksite for the topping ceremony on December 11th. The beam will be painted white and will be signed by special guests at the ceremony. To get video or pictures of people signing you will want to be at the work site by about 8:40am.)
