News Release

Short Phone Outage for City Services

(February 26, 2013) – Phones will be down in City of Nampa offices for a short time tomorrow (2/27), while phone services are changed to a new company.

The transition will begin at 10am. All phone services will be down for approximately 15 minutes with the exception of **Police dispatch and 9-1-1 calls which WILL NOT be affected.** Phone services throughout the rest of City services may remain spotty for up to an hour as the transition is completed.

Changing phone company services is a money saving measure for the City of Nampa. The new provider will save tax payers approximately \$800 per month.
