Please choose the best description of your team so that we can do our best to match you with property needs:

*A team should have a minimum of 10 members to be successful without wearing yourselves out.

- Very Capable – can take on a larger project
- Average- some with and some without experience. Don't want a huge nasty project, but can do more than a mobile home.
- Small or inexperienced team – would prefer a small project like a mobile home or to partner with another team.
- Partial Team – will need partnered with another team

Thank you for committing to help Nampa's seniors and disabled residents in need. With your help, we are able to make an impact on the residents of Nampa one house at a time. As available, we will provide you with information about the home and owner(s) your team is matched with.

Is your team interested in receiving more information about ordering event t-shirts? Yes No

Photos of my team may be taken for publicity purposes

Yes No

My team is able to paint a home built before 1978 (Please see the following page regarding potential Lead Based Paint)

Yes No

* If YES, please have individuals on your team sign the attached waiver. We just need the form back before prep work begins. Federal requirements ☺

Is your team willing to be partnered with another team based on the needs of the assigned home? Yes No

Brush-Up Nampa is funded through generous community sponsorship. Is your team able to sponsor the home you work on through your organization? Yes No

LEAD BASED PAINT

Housing built before 1978 may contain lead-based paint. Lead paint dust, chips and contaminated soil can be harmful to young children and pregnant women if safe practices are not followed. Volunteers will identify tasks on each project where children and pregnant women should be excluded because they may be exposed to lead dust.

Safety steps to follow regarding lead-based paint:

1. Wet down the siding with a garden hose prior to any scraping (this helps to eliminate any airborne paint dust).
2. Wear Respiratory Protection (masks) provided by the City any time you are disturbing existing paint (like scraping, sanding, or using a wire brush).
3. Place plastic drop cloths (provided by Brush-Up Nampa) under each area of the home that you are prepping. When scraping, any paint chips from the wall should be collected in the drop cloths and disposed of in the provided trash bags and not left in the soil surrounding the home.
4. Tie off the trash bags when finished and double-bag the debris. Please separate from regular trash left on the curb for collection.

**If you have young children or pregnant women in your group, you are not excluded from participating in Brush-Up Nampa. Please notify us and we'll gladly match you with a house built after 1978.*

Please call 208-468-5472 with any further questions.

I have read the above acknowledgement and have advised my team of lead safe paint practices.
